PROFESSIONAL SUMMARY

Senior WordPress Developer & Full Stack Engineer with 3+ years delivering production-grade websites for global enterprise clients via Dialed In Design (Canada), including Unbounce, Open Government Partnership, TractionComplete, Intiveo, PPIC, and Premier Boxing Champions. Expert in custom PHP development, WordPress theme and plugin architecture, Gutenberg block systems, and ACF-driven CMS builds across WordPress, Drupal, and Craft CMS. Proven measurable impact: +15% organic traffic, -30% LCP, fixed sitemap bugs affecting 1,700+ indexed URLs, and scaled integration UI from 16 to 57+ items with zero regressions. Extends into React/Next.js frontends, Flutter mobile apps, and AI/LLM integration – CI/CD-disciplined with multi-platform hosting expertise across Pantheon, WP Engine, Kinsta, and Servd.

SKILLS

Languages & Frameworks: PHP, JavaScript (ES6+), TypeScript, Dart/Flutter, React.js, Next.js 15, Node.js, SCSS/CSS3/HTML5

WordPress & CMS: Custom Themes & Plugins, Gutenberg Blocks, ACF Pro, Custom Post Types, Hooks & Filters, REST API, WooCommerce, Multisite, Drupal 7/9/10, Craft CMS

DevOps & Hosting: Git, GitHub Actions CI/CD, SSH, Docker, Pantheon, WP Engine, Kinsta, Servd, Staging-to-Production Deployment

SEO & Performance: JSON-LD Schema, Core Web Vitals (LCP/CLS/INP), Google Search Console, PageSpeed Insights, Sitemap Optimisation, WCAG Accessibility

Backend & Database: PHP OOP/MVC, MySQL, REST API Design & Integration, Node.js

Frontend & QA: React.js, Next.js, Tailwind CSS, Bootstrap, jQuery, Figma-to-Code, Cross-browser Testing

AI & Mobile: LLM Integration, Voice Tracking, Flutter (iOS & Android), Supabase, Firebase Auth, Google OAuth2, Razorpay

Design Tools: Figma (UI design basics, prototyping), Photoshop (basic image editing), GIMP

PROFESSIONAL EXPERIENCE

Web Developer → Senior WordPress Developer | FuelInt Technologies, Tamil Nadu | July 2022 – May 2026 | Full-time

- Built custom WordPress themes and plugins from Figma across 20+ international client sites in Agile/Scrum teams; reusable Gutenberg blocks and ACF components reduced repeat-project build time by ~25%.
- Developed custom Gutenberg block suite for Unbounce including Data, CTA, Expand Text, FAQ, and Video Popup blocks – built with React and native WordPress APIs for enterprise marketing teams.

- Implemented JSON-LD structured data (FAQ, Product, Breadcrumb, Organisation) across multiple sites, improving Rich Results eligibility and CTRs; resolved redirect chains and canonical issues, lifting organic traffic ~15% on average.
- Optimised Core Web Vitals via caching, asset optimisation, and code refactoring – cut LCP by ~30%, improved CLS by 0.05, and fixed a URL-encoding bug in sitemap generation affecting 1,700+ indexed URLs, restoring full crawlability within one sprint.
- Managed PHP 7.4 → 8.x upgrades across OGP, Premier Boxing Champions, and Elastic Path; applied monthly WordPress/plugin security patches and Node package updates across all client sites.
- Managed Git workflows, multi-SSH key configs, and staging-to-production deployments across Pantheon, WP Engine, Kinsta, and Servd; diagnosed production issues (JS conflicts, plugin incompatibilities, ACF/Gutenberg interactions) under tight deadlines.

Selected Client Projects

- **Unbounce.com** – ACF architecture, Performance, CPT & Theme customisation
- **TractionComplete.com** – ACF architecture, Performance & Custom Plugin dev
- **OpenGovernmentPartnership.org** – Large-scale CMS, Custom Post Types
- **PPIC.org** – ACF architecture, Performance, CPT & Theme customisation
- **Intiveo.com** – Elementor architecture, Security & Performance
- **Loopio.com** – ACF modular layout architecture, Security & Performance
- **ElasticPath.com** – Craft CMS, WCAG, Security & Performance
- **PremierBoxingChampions.com** – Drupal, Security & Performance

Notable Domestic Projects: Videoclips (React/Canvas video editor UI), Parithadam (Next.js 15 + Razorpay + Nodemailer), Developer Academy Quiz App (Flutter + Firebase Auth)

Freelance Full Stack Developer

Gradiolex | May 2025

Independently scopes, designs, and delivers web projects for local businesses and startups. Projects include MoneyArk (AI-powered personal finance app), MySupportInfo (customer support portal), NaviCakes, and Sri Dhanamoorthy Traders.

EDUCATION

B.E. Computer Science & Engineering – Vidyaa Vikas College of Engineering (Anna University), 2020 | CGPA: 7.04 / 10
